AKW Coronavirus Update #1

March 3, 2020

Dear Residents:

I am sure you are hearing a lot of reporting about the Coronavirus. In recognition of the virus's threats we are directing AKW staff and contractors to observe basic public health safety tips, including refraining from shaking hands, frequently washing their hands, and stepping up sanitation of door knobs and handles, and elevator buttons and railings. I just wanted to let you know especially about the no-handshaking issue so that you understand our employees are as friendly as ever but we want to observe the CDC's commonsense guidance, which you can also find [here](#).

Thanks for your understanding. —Quade.
